

P-6951

Van Beest offers a wide range of Snatch blocks with Green Pin® Shackles (P-6951 - Type 601S) and Green Pin® Snatch blocks with hooks (P-6952 - Type 601H). These blocks are available with a WLL of 2 t up to and including 15 t.

Snatch blocks allow the wire rope to be attached easily by opening up the block instead of threading the wire rope through the block.

They are fitted with conical roller bearings, with the exception of blocks with WLL 2 t and 4 t. These are equipped with bronze bushes.

Different sheave diameters for different cable diameters are kept in stock.

Please find herewith the latest Van Beest product information including details of our Green Pin® Snatch blocks.

For more information please contact us:
