

EXCEL[®]

also
Now available from stock for chain 6 mm

CRC

Van Beest has expanded its range of EXCEL[®] Clevis grab hooks with a smaller size, which is suitable for chain diameter 6 mm. The range now extends from 6 up to 16 mm.

These grab hooks can be used to shorten a sling. The throat shaped opening and deep chain pocket will hold the chain firmly in place. The saddle at the bottom of the hook gives full support to the chain link so there is no reduction in WLL.

Please find herewith the latest Van Beest product information including details of these grab hooks. For more information please contact us: sales@vanbeest.com
