from stock!!**

Product Update

UEL R

EL R

Van Beest introduces a new swivel type: UELR, which replaces the UELD type swivel. The eyes of the new UELR type are slightly bigger than those of the UELD type, which improves the performance of this product.

We have made the same modification to the grade 8 ELD type swivel, which is replaced by the new ELR type.

All sizes, in grade 8 and 10, are now available from stock.

Please find herewith the latest Van Beest product information including details of these swivels. For more information please contact us: sales@vanbeest.com

EXCEL® Needle bearing swivel, Eye-Eye, grade 10

- **Material** : alloy steel, grade 10, quenched and tempered
